Swiss Tourism Analysis Report (2019–2023)

This report presents an analysis of Swiss tourism trends using official government data. The objective is to understand tourism patterns, COVID impact, and regional performance.

Key Insights:

- Tourism dropped significantly in 2020 due to COVID-19.

- Swiss domestic tourism remained relatively stable during pandemic years.

- Foreign tourism recovered strongly in 2022 and 2023.

- Zurich, Bern, and Lucerne are the top-performing regions.

- Urban regions showed higher volatility compared to mountain regions.
